

Digital Transformation For A Global Bank

CASE STUDY

INDUSTRY | BANKING

The client was a leading banking institution stationed in 80 countries.

CHALLENGE

Clients paper-based processes increased their operational cost by a billion dollars, and their existing infrastructure needed to be transformed digitally.

SOLUTION

We digitally transformed their infrastructure and provided an end-to-end enterprise solution currently deployed in 80 countries worldwide, and the project is valued at around \$30 million.

IMPACT

Millennium helped the client to transform all their paper-based statements into electronic statements. The overall project is forecasted to save around \$700 million in 12 years.
